choice answers given. This book is ideal for all electricians, regardless of their experience, who need a testing qualification in order to take the next step in their career.

This book answers all your questions on the basics of inspection and testing with clear reference to the latest legal requirements. Chris Kitcher not only tells you what tests are needed but also describes all of them step-by-step with the help of real-world colour photos. Sample forms show how to verify recorded test results and how to certify and fill in the required documentation. The book is also packed with handy advice on how to avoid and solve common problems encountered on the job. With its focus on the practical side of the actual inspection and testing rather than just the requirements of the regulations, this book is ideal for students, experienced electricians and those working in allied industries on domestic and industrial installations. All the theory required for passing the City & Guilds 2391-10 and 2392-10 Certificates is explained in clear, easy to remember language along with sample questions and scenarios as encountered in the exams. The book will also help prepare students on Part P Competent Person courses, City & Guilds 2330 Level 3 courses, NVQs and apprenticeship programmes for their practical inspection and testing exam. Chris Kitcher has 45 years of experience in the electrical industry. He is an Electrical Installation lecturer at Central Sussex College and an examiner for the City and Guilds 2391 qualification. He has worked for the last 12 years in both the college environment and on site. \* Entirely up-to-date with 17th Edition IEE Wiring Regulations \* Step-by-step descriptions and photos of the tests show exactly how to carry them out \* Helping you to pass your exams on C&G 2391-10, 2392-10 and Part P courses

Do you need to inspect, test and certify the electrical work you carry out? Are you unsure what Part P and other legislation require you to inspect and test and how to do it? If you have answered yes to either of these questions, this is the book you have been looking for. It covers all the basics of inspection and testing and illustrates step-by-step and in full colour how to carry out the different tests. Examples show how to verify recorded test results and how to certify and fill in the required forms. It also addresses problems encountered on the job and how to avoid and solve them. This book covers all the theory required for passing the City & Guilds Level 3 Certificate in Inspection, Testing, Design and Certification of Electrical Installations (2391) and includes sample questions and scenarios as encountered in the exams. Further questions encourage readers to research answers in the On-Site Guide, as required in the exams for Part P Competent Person courses from EAL, NICEIC, NAPIT and others. Model answers for all questions are also provided. The book will also help prepare students on City & Guilds 2330 Level 3 courses, NVQs and apprenticeship programmes for their practical inspection and testing exams. With its focus on the practical side of the actual inspection and testing rather than

just the requirements of the regulations, this book is ideal for both experienced electricians and those working in allied industries, such as plumbers and heating specialists, kitchen and bathroom fitters, alarm installers and others, whether they are working on domestic or industrial installations. Chris Kitcher is an Electrical Installation lecturer at Central Sussex College and has 45 years of experience in the electrical industry. Covers all electricians and domestic installers need to know to comply with Part P of the Building Regs Step-by-step illustrations show how to actually carry out the tests Fully covers the syllabus of C&G 2391

This level 3 qualification helps learners develop the knowledge and practical skills required to carry out inspection and testing on electrical installations. The qualification offers three pathways depending on the type of inspection and testing required or previous qualifications gained by learners. 2391 is intended for practising electricians who want to expand their skills and knowledge in the area of Initial Verification and/or Periodic Inspection and continue their professional development. The book will: Include guidelines and advice about sitting the exam Include practice examinations, with fully worked and 'model' answers Act as a valuable revision aid, to help students prepare for the full exam

Exam Success: IEE Wiring Regulations 2391-10 is a new publication created by City & Guilds, in collaboration with the Institution of Engineering and Technology. Organized for easy use, it contains two full sample exam papers, together with answers and comments, designed to reinforce knowledge and understanding of the subject and to prepare candidates for the examination. City & Guilds is the UK's leading provider of vocational qualifications, offering over 500 awards across a wide range of industries, and progressing from entry level to the highest levels of professional achievement. With over 8500 centres in 100 countries, City & Guilds is recognized by employers worldwide for providing qualifications that offer proof of the skills they need to get the job done.
