Anissa Toma fled war-torn Syria after narrowly escaping the massacre of her Christian family by Islamists. NOTE: This is a "clean read" edition of The Syrian Virgin (i.e., this version has no profanity and minimally described intimacy). Due to war themes, the book is not recommended for readers under 16.

Anissa is traumatized by the most brutal conflict of the 21st Century: the Syrian Civil War. In 2012, Islamists in Homs terrorize a Syrian-Christian community and destroy everything that a young woman holds dear. Narrowly escaping death, Anissa restarts her devastated life as a college student in New York City. She is bewildered and lost, but hopeful for a better life in a new land. Anissa is soon drawn to two powerful individuals: Michael Kassab, the Syrian-American leader working to found the first Mideast Christian state, and Julien Morales, her Columbia University professor who runs a \$20 billion hedge fund. Complicating matters, Michael is still attached to his ex-girlfriend and Julien is the most sought after bachelor in Manhattan (and has hidden demons that even his therapist can't extract). Anissa's heart and her communal ties pull her in different directions, as she seeks hope and renewal in a dark world. Anissa of Syria might be compared to The Kite Runner and The Diary of Anne Frank.

Lesia's life in volume one and two took her on a journey from Jerusalem, Rome, Patra, Greece, and Ukraine. She kept the heartbeat of love inside her mind, reminding her that soon she would be reunited with her soul mate. Things did not go as she had hoped. A big dream was born inside this new-age woman. She will break the mold of where and what women were doing in her timeline. She now accepts the challenge of building an Andrew School for children and especially orphans. Her children would for sure not have slave-posted ears. Her slave earring is gone, but memories would sometimes surface. She ponders that maybe she will be only an old school maid. Her sandals were divided; she gave Jacob the right one, and is now unhappy with her decision. She

decides she would never separate them again. Now, the sandal, with God's help, begins an important maze journey for Jacob, Nathanael, Philip, and his sister, Mariamne, along with Mugface and his family. With ensuing international turmoil in the latter end of the maze, Lee Chin meets the Zhang Family. Speculus the gladiator has now gotten into her human desire! Was her last hug with Dylan leaving the mark of a son on her heart? Will this child face his destiny with no parents or country? Will everyone reach the end and be one big family? My novel was written in volumes, bringing my dream to life! Hopefully someday as a movie and enjoyment for all ages.

Here are 102+ ways to use training in family history and genealogy when applied to real-world careers in education, business, or government, including creative entrepreneurial start-ups. With the future marriage of genealogy to smart cards, online databases, or similar authentication technology for family history, population registration (census), and library research, it may be easier to research family lines, not only by DNA matches through DNA testing for deep ancestry, but also with smart, electronic cards designed for electronic identity. It's also a way to track military records as another way to trace family history. Careers and research may focus on various state libraries or historical associations. History and family studies are part of an interdisciplinary liberal arts program that emphasizes research and writing. Journalism courses help round out your ability to express in plain language the results of your reading, explorations, and interpretations. Obtaining a degree or even taking one course or self-study in Family, Public, or Social History can lead to broad, interdisciplinary careers. Graduate work in library science, law, journalism, public history, or genetics counseling (with a double major in the life sciences and social work) also lead to careers in which an historical education may be used.

Includes information on doing genealogical research in Croatia, Bulgaria, Hungary, Eastern Europe, Poland, and Greece and research techniques such as interpreting family histories and ancestry DNA test results, collecting personal histories and interviewing older adults, recovering and preserving documents and other forms of information.

Antigone Samellas examines the modes of reception of Jesus' message of salvation. She explores the Greek and Jewish influence on Christian eschatology and traces the Hellenistic roots of Christian consolation philosophy. The author examines Christianity as a 'total therapy of grief' and highlights the differences that existed between the religious cures and the Hellenistic philosophical therapies. To gain a better understanding of the process of conversion to the new faith Antigone Samellas also investigates which aspects of Christianity were appealing and which repugnant in the eyes of pagans and Jews. Finally, she attempts to convey something of the wisdom of the East, in all its cultural and religious nuances, to the modern reader.
