take it to the next level. This book can show you the way. 'These days taking chances isn't just for college dropouts in hoodies; everybody needs to think and act like an entrepreneur. We all need to be nimble, adaptive, daring - and maybe even a little crazy - or risk being left behind. But how do you take smart risks without risking it all? That's Linda Rottenberg's expertise. As the cofounder and CEO of Endeavor, the world's leading organization dedicated to supporting fast-growing entrepreneurs, she's spent the last two decades advising innovators. Now Rottenberg shows you how to achieve your dreams: from overcoming fear to facing down critics, from stalking supporters to exploiting chaos. Crazy Is a Compliment combines inspiring stories, original research and practical advice to create a road map for getting started and going bigger. NEW YORK TIMES BESTSELLER The oldest cultures in the world have mastered the art of raising happy, well-adjusted children. What can we learn from them? "Hunt, Gather, Parent is full of smart ideas that I immediately wanted to force on my own kids." —Pamela Druckerman, The New York Times Book Review When Dr. Michaeleen Doucleff becomes a mother, she examines the studies behind modern parenting guidance and finds the evidence frustratingly limited and often ineffective. Curious to learn about more effective parenting approaches, she visits a Maya village in the Yucatán Peninsula. There she encounters moms and dads who parent in a totally different way than we do—and raise extraordinarily kind, generous, and helpful children without yelling, nagging, or issuing timeouts. What else, Doucleff wonders, are Western parents missing out on? In Hunt, Gather, Parent, Doucleff sets out with her three-year-old daughter in tow to learn and practice parenting strategies from families in three of the world's most venerable communities: Maya families in Mexico, Inuit families above the Arctic Circle, and Hadzabe families in Tanzania. She sees that these cultures don't have the same problems with children that Western parents do. Most strikingly, parents build a relationship with young children that is vastly different from the one many Western parents develop—it's built on cooperation instead of control, trust instead of fear, and personalized needs instead of standardized development milestones. Maya parents are masters at raising cooperative children. Without resorting to bribes, threats, or chore charts, Maya parents rear loyal helpers by including kids in household tasks from the time they can walk. Inuit parents have developed a remarkably effective approach for teaching children emotional intelligence. When kids cry, hit, or act out, Inuit parents respond with a calm, gentle demeanor that teaches children how to settle themselves down and think before acting. Hadzabe parents are experts on raising confident, self-driven kids with a simple tool that protects children from stress and anxiety, so common now among American kids. Not only does Doucleff live with families and observe their methods firsthand, she also applies them with her own daughter, with striking results. She learns to discipline without yelling. She talks to psychologists, neuroscientists, anthropologists, and sociologists and explains how these strategies can impact children's mental health and development. Filled with practical takeaways that parents can implement immediately, Hunt, Gather, Parent helps us rethink the ways we relate to our children, and reveals a universal parenting paradigm adapted for American families.

Erasmus reached England after a stay in Italy early in the summer of 1510. Soon afterwards, in Thomas More's house at Bucklersbury, he rapidly wrote his famous satire, the Encomium Moriae, or "Praise of Folly," in which Folly celebrates her own praises as the great source of human pleasures. He had been meditating this piece on the long journey from Rome; it is a kaleidoscope of his experiences in Italy, and of earlier memories. As to the title, Moria, the Greek word for "folly," was a playful allusion, of course, to the name of his wise and witty host. This "Praise of Folly" is a satire, not only in the modern but in the original sense of that word,—a medley. All classes, all callings, are sportively viewed on the weak side. But in relation to the author's own life and times, the most important topics are the various abuses in the Church, the pedantries of the school-men, and the selfish wars of kings. If this eloquent Folly, as Erasmus presents her, most often wears the mocking smile of Lucian or Voltaire, there are moments also when she wields the terrible lash of Juvenal or of Swift. The popularity of the satire, throughout Europe, was boundless. The mask of jest which it wore was its safeguard; how undignified, how absurd it would have been for a Pope or a King to care what was said by Folly! And, just for that reason, the Encomium Moriae must be reckoned among the forces which prepared the Reformation.
