general equilibrium framework with emphasis on applications of theory. Long term economic growth is also covered.

## **Travis Cyronek - Teaching**

ECON 101 is designed to help students understand the economic method through the study of the principles of microeconomics. By the end of the semester, students should understand basic concepts in economics (opportunity cost; comparative advantage; marginal utility and marginal productivity; human, financial, and physical capital; externalities; public goods, income distributions, etc.).
