People are as interesting in painting and customizing now, as they were when this material was first created, in the 1950s. Everyone wants to know how to do a flame job, or how to run a pair of pinstripes straight down the side of their car. In this book George Barris explains how he and brother Sam did their custom painting and early flame jobs in the 1950s. No one can tell this story as well as George Barris, a fine photographer and the man who built many of the cars shown in the book. This particular book, Volume 4, contains more than just the photos and words of George Barris. This volume contains first-person side-bars by legendary painters and builders like Dean Jeffries and Larry Watson, describing how they developed their talents and what it was like to customize cars in those days.

This manual provides detailed solutions to the end-of-chapter problem sets.

The Spanish Civil War was one of the pivotal events of the 1930's, the moment when fascism and socialism came into open conflict. First published in 1939, *The Spanish Tragedy* recounts the experiences of Jef Last. Activist, poet and novelist, Last might have been the archetypal Republican volunteer but his experience left him even more disenchanted than most. Critical of Soviet Communism, a court martial loyal to Moscow tried to sentence him to death and he was forced to flee to Scandinavia.
