Although The Mysterious Island is technically a sequel to Verne's enormously popular Twenty Thousand Leagues Under the Sea, this novel offers a vastly different take on similar thematic motifs. As with all of Verne's best-known works, The Mysterious Island is a masterpiece of the action-adventure genre, with a heaping dash of science fiction influence thrown in for good measure.

El libro definitivo sobre Stephen King. Un viaje sin retorno por la vida y la obra del rey del terror. ¿Sabías que Stephen King repitió curso cuando era niño? ¿O que su primer empleo fue en una gasolinera? ¿Habías oído alguna vez que solo cobró un dólar como anticipo por su novela Christine para que la editorial pudiese invertir dinero en autores noveles? Todo sobre Stephen King nos descubre a uno de los autores más prolíficos y de mayor éxito de nuestro tiempo. Una obra llena de curiosidades y material inédito, imprescindible para entender el mundo del escritor que popularizó la pasión por la lectura: los primeros relatos que escribió de niño, sus poesías y sus novelas inacabadas; el viejo ejemplar de Lovecraft que marcó su vida; los objetos más buscados por los coleccionistas, el simbolismo de La Torre Oscura; su infancia en una caravana, con la pobreza siempre acechándole; el abandono de su padre; su personalidad introvertida; el grave accidente que casi acaba con su vida; el asiduo rechazo por parte de las editoriales y, por fin, como un giro del destino, el éxito y el reconocimiento merecidos cuando su mujer rescató de la papelera parte de un manuscrito que él había desechado: Carrie. Si aún no eres un ferviente lector de Stephen King, no te preocupes, esta obra te convertirá en uno.

At the beginning of the 20th century, the military importance of the Hawaiian Islands became clear. Oahu in particular was a key bastion in projecting America's military power in the Pacific. The island was turned into a military fortress and yet it also became the site of one of America's greatest defensive failures, the Japanese attack of December 7, 1941. By the end of World War II, the harbor itself was the most heavily defended in the world, and the island had earned the sobriquet "Fortress Oahu". This title documents the development of the coastal, air and land defense systems that served to protect Pearl Harbor and Honolulu from 1907 to 1950, and seeks to understand why these failed at a critical point.

Dumped by her boyfriend who would rather be alone than move in with her, she has almost given up on happiness. Until she notices that the beautiful Georgian townhouse she's long admired (ahem, "obsessed over") is looking for a new tenant, and suddenly it seems like things might be looking up . . . There's just one catch - the traditional, buttoned-up landlord is only willing to rent to a stable, married couple and August, quite frankly, is neither. Competition for the house is fierce and August knows she'll have to come up with a plan or risk losing her last shot at her happy ending. Enter Flynn, the handsome, charming and somewhat unsuspecting gentleman who August accidentally spills her coffee over. Flynn is new to the area and is looking for somewhere to live, and August thinks she knows just the place, but only if he's willing to tell a little white lie . . . The perfect feel-good summer read from reader favourite Lisa Dickenson, writing as Isla Gordon. But as she discovers that Lapland is more than Santa Claus's Village, the very last person she ever thought she'd fall for turns out to be a man who plays an Elf, and who is bound to stay in character at all times. Discover the secret missions behind America's greatest conflicts. Danny Manion has been fighting his entire life. Sometimes with his fists. Sometimes with his words. But when his actions finally land him in real trouble, he can't fight the judge who offers him a choice: jail... or the army. Turns out there's a perfect place for him in the US military: the Studies and Observation Group (SOG), an elite volunteer-only task force comprised of US Air Force Commandos, Army Green Berets, Navy SEALs, and even a CIA agent or two. With the SOG's focus on covert action and psychological warfare, Danny is guaranteed an unusual tour of duty, and a hugely dangerous one. Fortunately, the very same qualities that got him in trouble at home make him a natural-born commando in a secret war. Even if almost nobody knows he's there. National Book Award finalist Chris Lynch begins a new, explosive fiction series based on the real-life, top-secret history of US black ops.
