The Marantz MA-9S2 combo is understated in appearance, undeniably luxurious in feel, while at the same time massaging high-end egos by weighing in at 37kg per box. Be sure your rack – and your floor, for that matter – are up to the job. The MA-9S2 is a beast in terms of size, weight and power output (300 watts), but it offers a dose of real finesse behind all that bravado.~~

Going beyond examples of expressives, the contributions account for the semantics and pragmatics various of use-conditional phenomena.

In addition to the hands, sign languages make extensive use of nonmanual articulators such as the body, head, and face to convey linguistic information. This collected volume focuses on the forms and functions of nonmanuals in sign languages. The articles discuss various aspects of specific nonmanual markers in different sign languages and enhance the fact that nonmanuals are an essential part of sign language grammar. Approaching the topic from empirical, theoretical, and computational perspectives, the book is of special interest to sign language researchers, typologists, and theoretical as well as computational linguists that are curious about language and modality. The articles investigate phenomena such as mouth gestures, agreement, negation, topicalization, and semantic operators, and discuss general topics such as language and modality, simultaneity, computer animation, and the interfaces between syntax, semantics, and prosody.Originally published in Sign Language & Linguistics 14:1 (2011)

"It's hard to align with money if you think that it is evil and nasty. But once you come to an understanding that money is neutral, it's easy to see that having money does not necessarily deprive somebody else. There's no reason why you can't be very rich and still be an extremely spiritual and wonderfully generous person—aligned to the God Force—with a huge heart, and compassion for everyone you meet." — Stuart Wilde

NEW YORK TIMES BESTSELLER The former middle distance Olympic runner and high-end escort speaks out for the first time about her battle with mental illness, and how mania controlled and compelled her in competition, but also in life. This is a heartbreakingly honest yet hopeful memoir reminiscent of Manic, Electroboy, and An Unquiet Mind. During the 1990s, three-time Olympian Suzy Favor Hamilton was the darling of American track and field. An outstanding runner, a major sports apparel spokesperson, and a happily married wife, she was the model for an active, healthy, and wholesome life. But her perfect facade masked a dark truth: manic depression and bipolar disorder that drove her obsession to perform and win. For years after leaving the track, Suzy wrestled with her condition, as well as the loss of a close friend, conflicted feelings about motherhood and her marriage, and lingering shame about her athletic career. After a misdiagnosis and a recommendation for medication that only exacerbated her mania and made her hypersexual, Suzy embarked on a new path, and assumed a new identity. Fueled by a newfound confidence, a feeling of strength and independence and a desire she couldn't tamp down, she became a high-priced escort in Las Vegas, working as "Kelly." But Suzy could not keep her double life a secret forever. When it was eventually exposed, it sent her into a reckless suicidal period where the only option seemed out. Finally, with the help of her devoted husband, Suzy finally got the proper medical help she needed. In this startling frank memoir, she recounts the journey to outrun her demons, revealing how a woman used to physically controlling her body learned to come to terms with her unstable mind. It is the story of a how a supreme competitor scored her most important victory of all—reclaiming her life from the ravages of an untreated mental illness. Today, thanks to diagnosis, therapy, Kelly has stepped into the shadows, but Suzy is building a better life, one day at a time. Sharing her story, Suzy is determined to raise awareness, provide understanding, and offer inspiration to others coping with their own challenges.
