An analysis of the controversial and secretive religious organization known as Opus

## Online Library Opus Dei An Objective Look Behind The Myths And Reality Of Most Controversial Force In Catholic Church John L

Dei sheds light on the group's history, its tenets, and its influence within the Vatican hierarchy and on the politics and policies of the Catholic Church.

This book explores the early years of Opus Dei and shows why St. Josemaría Escrivá so quickly became renowned for his sanctity. Bringing to light details found only in hard-to-find Spanish sources, author John Coverdale highlights St. Josemaría's tireless, courageous efforts to spread the message of lay holiness even amid the terror and uncertainty of the Spanish Civil War. Coverdale explains how St. Josemaría helped others find Jesus Christ through a lay spirituality that anticipated Vatican II by thirty years.

This book aims to enlighten the readers to the reasons and arguments for believing in the existence of God, Jesus Christ is the true Messiah and to disprove the unfounded and blasphemous allegations made against Christ and the Universal Church by some fictional writers, who have attempted to ridicule Christ, and to reduce the standing of the Gospel to a product of political forces which allegedly operated, to determine as to which text should be included in the Canon and which should be edited out, rather than considering the Gospel as the literal work of God.

A former member of Opus Dei, a religious organization of the Roman Catholic Church, writes of the inner workings, dark side, and questionable practices of the organization, and discusses her contact with the organization's founder, Monsignor

Jose Maria Es

A captivating insider's guide to the politics and personalities that will have a tremendous impact on one of the world's most secretive and important events—the election of a pope. The next time a conclave unfolds in Rome, some 6,000 journalists are expected to descend on the Eternal City to cover the death of John Paul II and report on the election of his successor. The man in white who emerges from the Sistine Chapel at its conclusion will automatically become one of the most important figures on earth, a leader who commands a unique combination of political and spiritual power. Depending on how he chooses to exercise that power, governments and political systems may rise or fall, religious wars may heat up or abate, and the Church may undergo a radical transformation—from changes in its stances on such issues as sexuality, the place of women in the Church, to the role of the papacy itself. Conclave is a fascinating look at the election process and at what this headline-making occasion will mean to the world. John L. Allen, Jr., takes readers behind the scenes to reveal the issues, parties, and people most likely to determine the outcome. Setting the election within a broader context, he explains why it matters who becomes pope, discusses their role in the modern world, and examines the issues that will form the agenda of the next papacy. Although the book is not intended as a “handicapper’s guide,” Allen does offer his own informed list of the “top twenty” contenders for the position. He creates, as well, a classification system that clarifies the differences among the informal political

parties that exist within the College of Cardinals, the body of 130-plus men who will elect John Paul II's successor. In conclusion, he presents a critical, independent-minded profile of each of those cardinals—for one of them will certainly be the new pope.

A fascinating and enlightening look at the world's oldest and most mysterious institution, written by an American journalist with unparalleled knowledge about the Vatican's past and present. The sexual abuse scandals that shook American and British Catholicism in 2002 brought to light a long-standing cultural gap between the English-speaking Catholic world and the Vatican. In Rome, the crisis was often seen as an attack on the Church mounted by money-hungry lawyers, a hostile press, and liberal activists who used it as a way to turn attention on such concerns as celibacy, women's ordination, and lay empowerment. When the Vatican struck down the U.S. bishops' draft for handling allegations of sexual abuse, many saw it as an attempt to curb an independent American Catholic church. Yet, as time passed, it became clear that the Vatican's well-founded concerns about due process were shared by most liberal U.S. bishops and canon lawyers. ALL THE POPE'S MEN is a lucid, in-depth guide to the sometimes puzzling, often incomprehensible inner workings of the Vatican. It reveals how decisions are made, how papal bureaucrats think, and how careers in the Roman Curia are shaped. It debunks the myths that have fed the distrust and suspicions many English-speaking Catholics harbor about the way the Vatican conducts its business,

explains who really wields the power, and offers entertaining profiles of the personalities, historical and present-day, who have wielded that power for good and for bad. A thoughtful analysis of the recent sexual abuse crisis sheds light on how the Vatican perceives the Church in the United States. Balanced, lively, and filled with Vatican history and lore, ALL THE POPE'S MEN provides the general reader with an authoritative picture of the highly charged relationship between the Vatican and the richest, most influential national Catholic church in the world today.

Robert Hutchison's *Their Kingdom Come* is an explosive expose of one of the most powerful and secretive sects operating within the Roman Catholic Church-Opus Dei. This book reveals that Opus Dei: -Has become the Catholic Church's paramount financial power -Influences its members through a combination of secret rites and insistence on absolute obedience -Uses a strategy of discretion to cloud its real intentions -Aims to prepare Christendom for the next crusade against Islam

The first serious journalistic investigation of the highly secretive, controversial organization Opus Dei provides unique insight about the wild rumors surrounding it and discloses its significant influence in the Vatican and on the politics of the Catholic Church. Opus Dei (literally "the work of God") is an international association of Catholics often labeled as conservative who seek personal Christian

perfection and strive to implement Christian ideals in their jobs and in society as a whole. Founded in Spain in 1928, it now has 84,000 members (1,600 of whom are priests) in eighty countries. But far from running bingo nights at local parishes, Opus Dei has become a center of controversy and suspicion both within and outside the Church. It has been accused of promoting a right-wing political agenda and of cultlike practices, aggressive recruiting, brainwashing new recruits, and isolating members from their families. Its notoriety escalated with the publication of the runaway bestseller *The Da Vinci Code* (Opus Dei plays an important and sinister role in the novel) and with the previous pope's much-debated canonization of its founder (often linked with Francisco Franco's fascist regime) and the discovery that convicted FBI spy Robert Hanson was a member of Opus Dei. With the expert eye of a longtime trusted observer of the Vatican and the skill of an investigative reporter intent on uncovering closely guarded secrets, John Allen finally separates the myths from the facts in *Opus Dei*. Granted unlimited access to the prelate who heads the organization and to Opus Dei centers throughout the world, Allen draws on a wealth of interviews with current members, as well as with highly critical ex-members, to create an unprecedented portrait of the activities, practices, and intentions behind its veil of secrecy. Allen reveals the remarkable power that Opus Dei commands in shaping Vatican policy and presents a detailed look at the full extent of its network, which includes people in key positions in politics, banking, academia, and other influential arenas. He even describes the arcane rituals—including self-flagellation—performed to preserve and promote a spiritual

tradition strange and unsettling to modern sensibilities. For years, Opus Dei has been the subject of conspiracy theories and dark, uninformed speculation. Opus Dei sets the record straight.

A vivid blow-by-blow of the controversies that have wracked the Catholic Church during the past twenty years—Liberation theology, birth control, women's ordination, inclusive language, "radical feminism," homosexuality, religious pluralism, human rights in the church, and the roles of bishops and theologians—one man has stood at the dead center of all these controversial issues: Cardinal Joseph Ratzinger. A teenage American POW as the Third Reich crumbled and a progressive wunderkind at the Second Vatican Council, Ratzinger, for twenty years, has been head of the Congregation for the Doctrine of the Faith (until 1908 known as the Sacred Congregation of the Roman and Universal Inquisition, or Holy Office). The book goes a long way toward explaining the central enigma surrounding Ratzinger: How did this erstwhile liberal end up as the chief architect of the third great wave of repression in Catholic theology in the twentieth century? Based on extensive interviews with Ratzinger's students and colleagues, as well as research in archives in both Bavaria and the United States, Allen's account shows that Ratzinger's deep suspicion of "the world," his preoccupation with human sinfulness, and his demand for rock-solid loyalty to the church run deep. They reach into his childhood "in the

shadow of the Nazis" and reflect his formative theological influences: Augustine, Bonaventure, and Martin Luther(!) rather than the world-affirming Thomas Aquinas. When the cardinals of the Catholic Church next gather in the Sistine Chapel to elect a pope, Allen argues, they will in effect be deciding whether to continue the policies Ratzinger has been the central force in shaping."The servility of the sycophants, of those who shy from and shun every collision, who prize above all their calm complacency, is not true obedience. . . . What the church needs today as always are not adulators to extol the status quo, but men whose humility and obedience are not less than their passion for the truth; . . .men who love the church more than the ease and the unruffled course of their personal destiny."-Joseph Ratzinger (1962)>
