After the application has been prepared and the application server has been prepared as described in the Oracle Fusion Middleware Administrator's Guide for Oracle Application Development Framework, you

# Download Free Oracle Fusion Middleware

can proceed to deploy the application as described in Section 36.4, "Deploying the Application." The following diagram contains clickable links.

## *Deploying Fusion Web Applications - Oracle*

Oracle Fusion Middleware provides software for the development, deployment, and management of service-oriented architecture (SOA). It includes what Oracle calls "hot-pluggable" architecture, [2] designed to facilitate integration with existing applications and systems from other software vendors such as IBM , Microsoft , and SAP AG .
