Michel Thomas's approach to language learning aims to provide in a few hours a functional working knowledge of a language without books, note-taking or conscious memorizing. This CD pack provides an eight-hour course in German plus a 2-CD review course.

Benny Lewis, who speaks over ten languages—all self-taught—runs the largest language-learning blog in the world, Fluent In 3 Months. Lewis is a full-time "language hacker," someone who devotes all of his time to finding better, faster, and more efficient ways to learn languages. Fluent in 3 Months: How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in the World is a new blueprint for fast language learning. Lewis argues that you don't need a great memory or "the language gene" to learn a language quickly, and debunks a number of long-held beliefs, such as adults not being as good of language learners as children.

Now in paperback, an intimate look at the woman the world adored, by the son who adored her with unique photos, drawings, and other rare Audrey memorabilia. She dazzled millions as Gigi. Eliza Doolittle. Holly Golightly. But to her most adoring fan, Audrey Hepburn was best known for her role as "Mummy." In this heartfelt tribute to his mother, Sean Hepburn Ferrer offers a rare and intimate glimpse into the life of one of Hollywood's brightest stars. Audrey Hepburn, An Elegant Spirit is a stunning compilation of nearly 300 photographs, many straight from the family album and never before published: archival documents, personal correspondence, and mementos; even paintings and illustrations from the actress herself. Sean tells Audrey Hepburn's remarkable story, from her childhood in war-torn Holland to the height of her fame to her autumn years far from the camera and the crush of the paparazzi. Sean introduces us to someone whose grace, charm, and beauty were matched only by her insecurity about her appearance and talent, and who used her hard-won recognition as a means to help children less fortunate than her own. With this unique biography, Sean celebrates his mother's history and humanity—and continues her charitable work by donating proceeds from this book to the Audrey Hepburn Children's Fund.

NATIONAL BESTSELLER  For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive psychologist and author of the New York Times bestseller Guitar Zero At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

The present volume examines the relationship between second language practice and what is known about the process of second language acquisition, summarising the current state of second language acquisition theory, drawing general conclusions about its application to methods and materials and describing what characteristics effective materials should have. The author concludes that a solution to language teaching lies not so much in expensive equipment, exotic new methods, or sophisticated language analysis, but rather in the full utilisation of the most important resources - native speakers of the language - in real communication.
