**Check Each Part of Your Research Paper.** The first step in the revising and editing process is to start reading your draft from the beginning and make sure that each part—the introduction, body, and conclusion—does the job it ' s supposed to do. For each part of your draft, ask yourself the questions on the following checklist.

**How to Revise and Edit a Research Paper - iResearchNet**  
Revising isn ' t the first step in the process of writing a research paper, but it is perhaps the most important. Many students skip the revision process, mistaking editing for revision. While editing is also very important, revision is an integral part of any good writing process. During revision, you should try to see your work from different perspectives and different angles.

**Some Tips How to Revise a Paper - A Research Guide for ...**  
**Research Paper: Revise the First Draft.** Try to set aside your draft for a day or two before revising. This makes it easier to view your work objectively and see any gaps or problems. Revising involves rethinking your ideas, refining your arguments, reorganizing paragraphs, and rewording sentences. You may need to develop your ideas in more detail, give more evidence to support your claims, or delete material that is unnecessary.

**Research Paper: Revise the First Draft - TeacherVision**  
Writing and revising a paper is a time-consuming and messy process, and this is exactly why some people experience anxiety about writing long papers. It ' s not a task that you can finish in a single sitting—that is, you can ' t if you want to do a good job. Writing is a process that you do a little bit at a time.

Revising gives you the chance to preview your work on behalf of the eventual reader. Revision is much more than proofreading, though in the final editing stage it involves some checking of details. Good revision and editing can transform a mediocre first draft into an excellent final paper.

**Revising And Editing | Writing Advice**  
Good Research Questions Are Open to Debate. It's easy to write a research paper or do a project about something that isn't controversial, but you likely won't be creating anything new. Instead, ask a research question about something that has multiple sides. That way, the research you do and details you include will have more impact.
