In 1968, British Leyland brought together many of Britain's motor manufacturers, with the intention of creating a robust unified group that could equal the strength of the big European conglomerates. But this was not to be. There have been many books about the politics and the business activities of British Leyland, but *British Leyland - The Cars, 1968-1986* looks exclusively at the cars that came from the company, both the models it inherited and those it created. The eighteen years of the corporation's existence saw a confusing multitude of different car types, but this book resolves these confusions, clarifying who built what, and when. The book takes 1986 as its cut-off point because this was the year that the old British Leyland ceased to exist and what was left of the car and light commercial business was renamed the Rover Group. The book includes: Production histories and technical specifications of every major model; The special overseas models; Appendices on engines, code names, and factories; Buying guidance on the models built in Britain. This is the most comprehensive book so far to focus on the cars from British Leyland between 1968-1986 and it provides an overview of each model's production history, together with essential specification details. It is profusely illustrated with 178 colour and 63 b&w photographs.

A model-by-model history of the popular Triumph Dolomite family, the range of quality sporting saloons that started with the Triumph 1300 and was in production from 1965-80. The Triumph 1300 was innovative, with front-wheel drive and a four-door body designed by Giovanni Michelotti. In 1970 the Triumph 1500 and the three-door Toledo were introduced, followed by the range-topping Dolomite in 1972, with Triumph's slant-4 overhead cam engine and rear-wheel drive. The fast Dolomite Sprint confirmed Triumph's position as the British 'BMW Beater' in 1973, with its powerful 16-valve engine and value achieved through clever engineering. In 1976 the whole range was renamed 'Dolomite' - and was a well-rounded model spread of four-door saloons, with engine sizes from 1300cc to 2 litres. With technical specifications and over 150 colour photographs, Triumph Dolomite - An Enthusiast's Guide also includes competition history, the Dolomites' ancestors, and a guide to buying and owning these iconic saloons. Fully illustrated with 161 colour photographs.
