I got this book because its title (The Rag and Bone Shop of the Heart), like much of the rest of Yeats, is unbeatable. I didn't realize at the time that it had a subtitle; if I did realize it had this particular subtitle (Poems for Men), I wouldn't have bought it. My negative intuition toward the subtitle proved correct.

A leading psychiatrist shows how the mysteries of the brain are illuminated at the extremes of human experience.

A leading psychiatrist shows how the mysteries of the brain are illuminated at the extremes of human experience A twinge of sadness, a rush of love, a knot of loss, a whiff of regret. Memories have the power to move us, often when we least expect it, a sign of the complex neural process that continues in the background of our everyday lives. A process that shapes us: filtering the world around us, informing our behaviour and feeding our imagination. As a practising psychiatrist, Veronica O'Keane has spent many years observing how memory and experience are interwoven. In this rich, fascinating exploration, she asks, among other things, why can memories feel so real? How are our sensations and perceptions connected with them? Why is place so important in memory? Are there such things as 'true' and 'false' memories? And, above all, what happens when the process of memory is disrupted by mental illness? Here O' Keane uses the broken memories of psychosis to illuminate the integrated human brain, offering a new way of thinking about our own personal experiences. Drawing on the poignant stories of her patients and much more, from literature and fairy tales, O'Keane uses the latest neuroscientific research to reframe our understanding of the extraordinary puzzle that is the human brain; from birth through to adolescence and old age. This book is a testament to the courage - and suffering - of those who live with serious mental illness, showing how their experiences unlock everything we know and feel.

Robert Bly, James Hillman, and Michael Meade challenge the assumptions of our poetry-deprived society in this powerful collection of more than 400 deeply moving poems from renowned artists including Robert Frost, Emily Dickinson, Langston Hughes, Theodore Roethke, Rainer Maria Rilke, Marianne Moore, Thomas Wolfe, Czeslaw Milosz, and Henry David Thoreau.

For almost 70 years, Shakespeare and Company, the English-language bookstore in Paris, has been a home-away-from-home for celebrated writers--including Jorge Luis Borges, James Baldwin, A. M. Homes, and Dave Eggers--as well as for young, aspiring authors and poets. Visitors are invited to read in the library, share a pot of tea, and sometimes even live in the shop itself, sleeping in beds tucked among the towering shelves of books. Since 1951, more than 30,000 have slept at the "rag and bone shop of the heart." This first, fully illustrated history of the bookstore draws on a century's worth of never-before-seen archives. Photographs and ephemera are woven together with personal essays, diary entries, and poems from more than seventy contributors, including Allen Ginsberg, Anaïs Nin, Lawrence Ferlinghetti, Sylvia Beach, Nathan Englander, Dervla Murphy, Jeet Thayil, David Rakoff, Ian Rankin, Kate Tempest, and Ethan Hawke. With hundreds of images, it features Tumbleweed autobiographies, precious historical documents, and beautiful photographs, including ones of such renowned guests as

William Burroughs, Henry Miller, Langston Hughes, Alberto Moravia, Zadie Smith, Jimmy Page, and Marilynne Robinson. Tracing more than 100 years in the French capital, the story touches on the Lost Generation and the Beats, the Cold War, May '68, and the feminist movement--all while reflecting on the timeless allure of bohemian life in Paris.--Adapted from dust jacket and publisher website.

An intriguing debut historical novel presents a fictionalized account of the secret thirteen-year love affair between author Charles Dickens and actress Ellen Ternan, as told in the alternating voices of Dickens's sister-in-law Georgina Hogarth, mystery writer Wilkie Collins, and Ternan herself. A first novel. Reprint.

From relics of Georgian empire-building and slave-trading, through Victorian London's barged-out refuse to 1980s fly-tipping and the pervasiveness of present-day plastics, Rag and Bone traces the story of our rubbish, and, through it, our history of consumption. In a series of beachcombing and mudlarking walks - beginning in the Thames in central London, then out to the Kentish estuary and eventually the sea around Cornwall - Lisa Woollett also tells the story of her family, a number of whom made their living from London's waste, and who made a similar journey downriver from the centre of the city to the sea. A beautifully written but urgent mixture of social history, family memoir and nature writing, Rag and Bone is a book about what we can learn from what we've thrown away - and a call to think more about what we leave behind.
