Visual Complexity: Mapping Patterns of Information, Manuel Lima collects and presents almost three hundred of the most compelling examples of information design — everything from representing networks of followers on Twitter and the eighty-five recorded covers of Joy Division's "Love Will Tear Us Apart" to depicting interconnections between members of the Al Qaeda network and interactions among proteins in a human cell. Lima also looks at the long tradition of mapping complex ...

Visual Complexity: Mapping Patterns of Information by ...

Several researchers, scientists and designers across the globe are trying to make sense of a variety of complex networks using different technological tools at their disposal. They employ a mix of colors, symbols, graphics, algorithms and interactivity to advance cognition and deepen knowledge in each subject of analysis. By doing this they are in many ways creating the syntax of a new language.
