"How to Succeed as a Small Business Owner ... and Still Have a Life!" An "owner's manual" for small businesses! Put your business on "auto-pilot." Learn how to ... - Use your business as a tool to enhance your personal life - Set ambitious goals and achieve them - Develop a real, working business plan - Use values to provide guidance to your staff - even when you're not at the office - Get the right people on your team and keep them there - Delegate effectively - Create a "self-healing" culture that practically fixes its own problems - And much more "If you own a small business, or are thinking of starting one, you need Bill Collier's wonderful book. Bill writes clearly and succinctly as a small business owner who learned how to do it right. His book is a much-needed guide for anyone who wants to get the most out of the small business experience." -- Bo Burlingham, editor-at-large of Inc. magazine About the Author: Bill Collier is a long-time entrepreneur who knows what it's like to have to "make payroll." Bill earned success the hard way - grinding it out for years after starting his first business, and learning from his own mistakes. After a good first few years, his company hit a wall. Morale was low, employee turnover was high, and cash flow was awful. In near desperation, he discovered a number of common-sense management approaches that saw his firm through years of prosperity. Product Details: Printed: 164 pages, 6.00" x 9.00", perfect binding, black and white interior ink, full color paperback cover ISBN: 0-9777-7850-9 Publisher: Porchester Press Copyright: (c) 2006 Bill Collier Language: English Country: United States Edition: First Edition

Let your garden grow! The concept of "The Ownership Yard" was born out of years of experience and thousands of hours providing therapy, supervision, and consultation. It works every time, in all situations, and without exception. "The Ownership Yard" will guide you in developing the courage to own what is in your yard, the serenity to accept what isn't, and the wisdom to know the difference. Happiness awaits!

At the end of this book, your child should be able to identify how John Cabot and Henry Hudson searched for the Northwest Passage. What was this passage and what was its significance in the exploration of the Americas. Further, your child should be able to locate the regions and when they were discovered. Did the search come without hardships? Know the answers and more!

For a century, almost all light-duty vehicles (LDVs) have been powered by internal combustion engines operating on petroleum fuels. Energy security concerns about petroleum imports and the effect of greenhouse gas (GHG) emissions on global climate are driving interest in alternatives. Transitions to Alternative Vehicles and Fuels assesses the potential for reducing petroleum consumption and GHG emissions by 80 percent across the U.S. LDV fleet by 2050, relative to 2005. This report examines the current capability and estimated future performance and costs for each vehicle type and non-petroleum-based fuel technology as options that could significantly contribute to these goals. By analyzing scenarios that combine various fuel and vehicle pathways, the report also identifies barriers to implementation of these technologies and suggests policies to achieve the desired reductions. Several scenarios are promising, but strong, and effective policies such as research and development, subsidies, energy taxes, or regulations will be necessary to overcome barriers, such as cost and consumer choice.

Includes cases argued and determined in the District Courts of the United States and, Mar./May 1880-Oct./Nov. 1912, the Circuit Courts of the United States; Sept./Dec. 1891-Sept./Nov. 1924, the Circuit Courts of Appeals of the United States; Aug./Oct. 1911-Jan./Feb. 1914, the Commerce Court of the United States; Sept./Oct. 1919-Sept./Nov. 1924, the Court of Appeals of the District of Columbia.

An updated edition of the blockbuster bestselling leadership book that took America and the world by storm, two U.S. Navy SEAL officers who led the most highly decorated special operations unit of the Iraq War demonstrate how to apply powerful leadership principles from the battlefield to business and life. Sent to the most violent battlefield in Iraq, Jocko Willink and Leif Babin's SEAL task unit faced a seemingly impossible mission: help U.S. forces secure Ramadi, a city deemed "all but lost." In gripping firsthand accounts of heroism, tragic loss, and hard-won victories in SEAL Team Three's Task Unit Bruiser, they learned that leadership—at every level—is the most important factor in whether a team succeeds or fails. Willink and Babin returned home from deployment and instituted SEAL leadership training that helped forge the next generation of SEAL leaders. After departing the SEAL Teams, they launched Echelon Front, a company that teaches these same leadership principles to businesses and organizations. From promising startups to Fortune 500 companies, Babin and Willink have helped scores of clients across a broad range of industries build their own high-performance teams and dominate their battlefields. Now, detailing the mind-set and principles that enable SEAL units to accomplish the most difficult missions in combat, Extreme Ownership shows how to apply them to any team, family or organization. Each chapter focuses on a specific topic such as Cover and Move, Decentralized Command, and Leading Up the Chain, explaining what they are, why they are important, and how to implement them in any leadership environment. A compelling narrative with powerful instruction and direct application, Extreme Ownership revolutionizes business management and challenges leaders everywhere to fulfill their ultimate purpose: lead and win.

This Prius repair manual contains the essential information and know-how you need to take the mystery out of servicing the Toyota Prius with Hybrid Synergy Drive®. You'll find step-by-step directions from safely disabling the high voltage system to real-world practical repair and maintenance procedures and full-color technical training.
