Wonder Woman's desire to become a superhero takes her to Super Hero High, where she juggles new friendships, intensive training, and a roommate obsessed with social media.

A fun and feminist look at forgotten women in science, technology, and beyond, from the bestselling author of THE FANGIRL'S GUIDE TO THE GALAXY You may think you know women's history pretty well. But have you ever heard of. . . · Alice Ball, the chemist who developed an effective treatment for leprosy—only to have the credit taken by a man? · Mary Sherman Morgan, the rocket scientist whose liquid fuel compounds blasted the first U.S. satellite into orbit? · Huang Daopo, the inventor whose weaving technology revolutionized textile production in China—centuries before the cotton gin? Smart women have always been able to achieve amazing things, even when the odds were stacked against them. In Wonder Women, author Sam Maggs tells the stories of the brilliant, brainy, and totally rad women in history who broke barriers as scientists, engineers, mathematicians, adventurers, and inventors. Plus, interviews with real-life women in STEM careers, an extensive bibliography, and a guide to women-centric science and technology organizations—all to show the many ways the geeky girls of today can help to build the future. Table of Contents: Women of Science Women of Medicine Women of Espionage Women of Innovation Women of Adventure

Saturated in patriotic colors, Superman and Wonder Woman are about as American as baseball and apple pie. Superman, created in 1938,

materialized as the brawny answer to the Great Depression, and when Wonder Woman arrived three years later, she supported her adopted country by fighting alongside Allied troops in World War II. As the proverbial mother and father of the superhero genre, these icons appeared to a society in crisis as unwavering beacons of national morality, a quality that lent them success on the battlefield—and on the newsstand. As new crises arise our comic-book champions continue to be called into action. They adapt and evolve but remain the same potent, if flawed, symbols of the American way. The artists in *Men of Steel, Women of Wonder*, an exhibition organized by Crystal Bridges Museum of American Art, wrestle with Wonder Woman's standing as a feminist icon, position Superman as a Soviet-era weapon, and question the immigration status of both characters. Featuring more than seventy artworks that range from loving endorsements to brutal critiques of American culture, this exhibition catalog reveals the enduring presence of these characters and the diverse ways artists employ them.

#1 NEW YORK TIMES Bestseller! From the masterful minds of Grant Morrison (*FINAL CRISIS, THE MULTIVERSITY*) and Yanick Paquette (*SWAMP THING, BATMAN, INC.*) comes the most provocative origin of Wonder Woman you've ever seen—a wholly unique retelling that still honors her origins. For millennia, the Amazons of Paradise Island have created a thriving society away from the blight of man. One resident, however, is not satisfied with this secluded life—Diana, Princess of the Amazons, knows there is more in this world and wants to explore, only to be frustrated by her protective mother, Hippolyta. Diana finds her escape when Air Force pilot Steve Trevor, the first man she has ever seen, crashes onto their shores. With his life hanging in the balance, Diana ventures into the long-forbidden world of men. The Amazons chase after her and bring her back to Paradise Island in chains to face trial for breaking their oldest law—staying separated from the world that wronged them. Thought-provoking yet reverent, thoroughly modern but still timeless, the power and courage of Paradise Island's greatest champion—Wonder Woman—is introduced in this addition to DC Comics' NEW YORK TIMES best-selling *EARTH ONE* original graphic novel series.

Contains thirty-three contemporary short fiction stories about people living in the Southwest, written by women authors who are either from, or have spent a significant amount of time in the region.

The world's most popular female super hero returns to the big screen in *Wonder Woman*. This kit captures the huge audience for the enduring icon of empowerment for girls and women of all ages. It includes a 3 ½" Wonder Woman figure featuring audio of 10 different motivational phrases, plus a 48-page book titled *The Wonder Woman Way*, complete with full-color artwork.

There are only a few productive things a man can do once he picks up a sword. And the very lowest of these is to become an adventurer, like Lenk and his companions. For the right price, no deed is too dirty, no task is too dangerous, no foe too ferocious. Not even a demon. From wars ancient and terrible, wounds are bleeding. From seas deep and fathomless, demons are rising. From the mouth of hell, the Kraken Queen is calling. And all that stands between the damned and the mortal world are a pack of degenerates and the steel they carry. Seas will rise. Heaven will fall. Now, for the first time the breakout trilogy by Sam Sykes is collected in one volume.

The Net Force races to find the source of a dangerous designer drug—a potent and illegal mixture of pharmaceuticals, psychedelics, and

steroids that transforms its users into murderous rapists--sold over the Internet to wealthy clients.

Margery Mutters has just received a curious letter notifying her of her uncle's death. It comes in no ordinary envelope: piercing black eyes on the envelope cast a spell on her, and odd things start to happen. Driven by the enchanting eyes, she is soon on a journey to an island full of secrets: Rooke's Island. Margery sets off to explore the three levels of this bizarre land that she has just inherited, riding the super root coaster through the tunnels that run through the Lower Earth like a subway. Then, she plunges deep down through a shaft into the island's very core and enters the kingdom of the Inner Earth. From the peculiar to the creepy and downright terrifying, nothing makes sense, and nothing is familiar-but there's no turning back. When Margery meets the wise and magical owls who inhabit these Earths, their secrets become her own. She is invited to take her uncle's place on their Council of Owls, and she unintentionally becomes an integral part of their ancient prophecy. But even the slightest change in history could affect the owls' destiny for another thousand years

Kit includes: Wonder Woman cast iron cuff bracelet (size adjustable) 32-page book on Wonder Woman with full-color illustrations throughout
