characteristics, ranging across material culture, the mindset of its people, and social and economic factors. In this volume, Barry J. Kemp identifies the ideas by which the Egyptians organized their experience of the world and explains how they maintained a uniform style in their art and architecture across three thousand years, whilst accommodating substantial changes in outlook. The underlying aim is to relate ancient Egypt to the broader mainstream of our understanding of how all human societies function. Source material is taken from ancient written documents, while the book also highlights the contribution that archaeology makes to our understanding of Egyptian culture and society. It

in the Near East, moving on to the first Aegean civilizations, the Mediterranean world in the first millennium, Imperial Rome, northeast Africa, the divine kings in southeast Asia, and empires in East Asia, as well as early states in the Americas and Andean civilization. Ancient Civilizations includes a number of features to support student learning: a wealth of images, including several new illustrations; feature boxes which expand on key sites, finds and written sources; and an extensive guide to further reading. With new perceptions of the origin and collapse of states, including a review of the issue of sustainability, this fourth edition has been extensively updated in the light of spectacular new discoveries

and the latest theoretical advances. Examining the world's pre-industrial civilizations from a multidisciplinary perspective and offering a comparative analysis of the field which explores the connections between all civilizations around the world, Scarre and Fagan, both established authorities on world prehistory, provide a valuable introduction to pre-industrial civilizations in all their brilliant diversity.

A storytelling approach that engages students with features to help them master core content, think critically, and make connections.
