Sound questions (practice) | Sound | Khan Academy

Sound Waves is a systematic, whole school word study program designed to develop spelling and reading skills through the phonemic approach - from Foundation to Year 6. The phonemic approach focuses on the sounds of our language and is internationally recognised as one of the most effective ways to teach spelling and reading.

Sound Waves 6 National Edition Student Book

Apart from the electromagnetic waves, there are also matter waves, like water waves and sound waves. These travel at a much lower speed. Whereas light can travel in a vacuum, i.e. a place with no particles (like empty space), matter waves need a medium, i.e. particles, to travel in. That's how light can travel in space, but sound cannot.

Light Waves Worksheet - EdPlace

1. Understand the sound is a form of energy. 2. Explain the sound wave in terms of amplitude and wavelength. 3. Understand the properties of sound waves. 4. Calculate the speed of sound. 5. Explain how the sound travels. 6. Structure of ear. The worksheets are useful for KS3 students, especially Year 8 students to revise and master the topic.
